

FCA – Ron Rose

The FCA continues to focus on the development of the Official Plan, and the promotion of the "15 minute neighbourhood". The Planning Committee of the FCA had a brief discussion of a proposal from an organization called "Walkable Ottawa" and has circulated a document promoting a set of principles for adoption by the City to promote walkability. The document is attached to this report. Walkable Ottawa also has a website, www.walkableottawa.ca which provides additional details, as well as a video, on the concepts behind the proposal. Walkable Ottawa is seeking endorsements from Community Associations for their proposals. As these proposals touch on areas covered by many of our standing committees, I plan to give board members time to review and comment, and to propose a motion at our January meeting.
